

COVID-19 Precautionary Measures

“THE MUDJIMBA” is the last of her kind and has been cruising the Mooloolaba Harbour River and Canals for 30 years. She has become a well known and loved part of the Mooloolaba landscape. We would like to reassure you that.

Mooloolaba Canal Cruise has always been committed to providing a safe environment for both patrons and staff.

We are open for business until such a time that we are informed not to by government directive

- All seats and rails have always been and will continue to be wiped clean and disinfected in between each 1-hour canal cruise.
- We have a limited supply of hand sanitiser at present. Patrons are advised to attend to their own hand hygiene before boarding.
- We have hand washing facilities on board, with individual drying cloths.
- The Mudjimba is an open vessel.
- Unfortunately, during this time, we will not be able to accommodate our younger passengers to assist Skipper Rob with driving the boat.
- We are limiting the maximum number of patrons per cruise from 40 to 20. This will allow groups to sit together, whilst distancing from other groups of one or more.
